DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. *Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.*

Claims 1, 2, 3, 4, 5, 6, 12, 13, 14, 15, "said metal wiring layer" should be -- said **uppermost** metal wiring layer-- because it lacks a clear antecedent basis.

Double Patenting

3. **Claims 1-20** are rejected under the judicially created doctrine of obviousness-type double patenting over **claims 1-21 of U. S. Patent No. 6,562,674 B1** since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

The subject matter claimed in the instant application and similar language recited in the patent claims obviously depict a similar method having either same steps and/or same materials, and such is also disclosed in both the patent and the instant application.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Nakajima'174, Yamazaki'871, Yoo'041, Tzeng'503 are cited as of interest.

5. A shortened statutory period for response to this action is set to expired 3
